

STASSEN TELLS OF HUGE GAINS BY "INSIDERS"

Days Traders Near Adminis-
tration Have Cleaned Up
About 4 Millions.

By The Associated Press
WASHINGTON, Jan. 9.—Harold
Stassen testified today that high
administration "insiders" have
made a profit of about \$4,000,000
by trading in commodities since
the war.

Stassen, a candidate for the Re-
publican presidential nomination,
told a senate appropriations
committee inquiring into specu-
lation that Edwin W. Pauley, a
special assistant to Secretary of
the Army Royall, "did not make
full disclosure" of his trading
activities when he appeared be-
fore the committee last month.
Stassen said his information is
based on a profit of approximately \$1,000,000
through his trading and did not
use about \$100,000, as Stassen said
Pauley inferred.

He urged the committee to
carry through with a complete
investigation, saying integrity of
government is involved.

Repeals Accusation

Stassen reiterated his accusa-
tion that "insiders of the present
administration have been
profiteering" through their use
of official information.

In addition to Pauley, he named
Gen. Wallace H. Graham and
Admiral D. M. Mahan. Besides these, Stas-
sen said, "there are a number of
others high in the administration
who are involved."

The three he mentioned already
have been disclosed on agricul-
ture department lists as having
traded in grain or other commodi-
ties. Graham is President Truman's
personal physician and
Mahahan was in the administration
during the war. Graham was in-
vited by the committee to follow
Stassen on the stand.

Stassen said he has information
that administration figures have
traded in commodities to the ex-
tent of about \$20,000,000 and that
they have received personally
to the extent of \$4,000,000.

After Stassen said other ad-
ministration people besides Pauley,
Mahahan, and Graham were in-
volved in commodity speculation,
chairman Ferguson asked if he
had any other names to give the
committee.

Stassen said: "I think it would
be preferable to give you the leads
and indications, on which you will
develop the case."

Talk of Pauley Purchase

Stassen testified Pauley bought
\$50,000 of wheat futures
last Aug. 12 when Pauley was in
Honolulu and Robert Hannagan,
senior postmaster general and
democratic national chairman, was
in that office.

He added that Pauley sold these
shares Aug. 19 at a profit of \$4,-
000 at a time when Secretary of
Agriculture Anderson was Pauley's
superior in Honolulu.

Stassen asked the committee to
inquire into the manner in which
Pauley's orders from Honolulu
were placed.

He also urged that the commit-
tee have expert accountants check
the pattern in which Pauley
moved in and out of commodity
markets, comparing it with the
kind of the dealings of Ralph
Hawley "and others in the govern-
ment."

"More Than Coincidental"

Stassen said of Pauley:
"You will find him moving in
and out of the market, with a
profit of a million dollars since
the end of the war. It is more
than a million a loss. Any
normal citizen will conclude
that the pattern is more than
coincidental. No one could have
that good a crystal ball."

Ferguson handed him a large
document which the chairman
said was an account of Pauley's
commodity trading from 1945 to
Dec. 26, 1947. Stassen appeared
familiar with it, and ran through
it quickly.

He said that on Aug. 25, Pauley
bought 400,000 pounds of wheat
futures, December futures, for
\$8.00 and sold them Oct. 7 for
\$11.00.

Stassen asked that "an exact in-
vestigation" be made of the man-
ner in which administration peo-
ple distributed their market prof-
its, tracing those funds through
the banks.

Stassen said: "You mean the name
of any individual may not mean
much."

Stassen: "Our investigation shows
the profits have been used. The
names of lawyers or relatives
are sometimes used."

New List Issued
There were, meanwhile, these
developments in an ever-
widening inquiry into the effects
of speculation in commodities:
1. The department of agricul-
ture made public a list of major
orders of oats futures during the
9-month period which ended last
Jan. 30. The only name of a
trader to STASSEN, Page 10)

START SCHOOL PLAN ACTION

Board and Planning Associa-
tion Committee To Confer
on Building Program.

The executive committee of the
Marion Civic Planning association
Thursday night voted to recom-
mend that the school board pro-
ceed with action on the \$2,000,000
city school building program ap-
proved by the voters in May, 1946.

The committee, meeting at Hotel
Harding, authorized appointment
of a five-member group to con-
fer with the city board of educa-
tion relative to launching the
building program on a modified
scale.

Rapidly rising costs of materials
and labor since the program was
first drafted in the winter of 1946
now make it impossible to carry
out the original plans with the
money available, it was pointed
out at the meeting last night.

Question To Decide

As a result school board mem-
bers are faced with task of decid-
ing whether to modify the pro-
gram to bring it within the scope
of the funds available or to con-
tinue to delay the start of the
work, hoping building conditions
will improve in the near future.

These are the problems the
board and the Civic Planning As-
sociation committee will tackle
when they get together at a later
date.

Chairman Bernhard Peterson
this morning appointed Ben T.
Wright, planning group build-
ing chairman to head the commit-
tee serving with these members: Harley
Lewis, James E. Reed, Miss Ruth
Kleinmaier and Harold Grigsby.

The school building program,
as approved by the voters, calls
for a new junior-senior high school
to be erected at the Harding ath-
letic field site, a new junior high
on North State street location and
extensive rebuilding of the Silver
street grade school building.

Voted in May, 1946

A bond issue voted in May, 1946,
was for \$2,000,000 with the new
junior-senior high taking \$1,250,-
000 of the total, the State street
junior high, \$449,000 and the Sil-
ver street school \$135,000. Lesser
amounts were allocated for other
buildings.

Greatly increased costs of con-
struction since the appropriations
were approved had led the board
of education to delay action on
the new building program.

The board had prepared to let
the contract on the Silver street
building program but held up ac-
tion when the sole bid on the
project was nearly \$100,000 over
the appropriation figure.

Mr. Peterson said last night
"We had better build what we can
with what we have. It is either
that or nothing."

HOLDUP BAND ROBS BANK OF \$100,000

By The Associated Press
NEW ORLEANS, Jan. 9.—Four
armed and unmasked men held up
the mid-city branch of the Hiber-
nia branch of the Hibernia National
bank today and escaped with an
estimated \$100,000 in cash. De-
fective Joseph Tardo of the New
Orleans police department said.

Tardo said \$60,000 which the
bank kept in the vault was miss-
ing, and that bank officials esti-
mated that \$40,000 was gone from
other parts of the vault and tell-
ers' cages.

Forcing their way into the bank
30 minutes before opening time
as employees began arriving, the
four men herded some 22 or 25 of
them into locker rooms while forc-
ing the manager to open the vault.

The daring robbery took place
at one of the city's busy inter-
sections in broad daylight. It was
the first bank robbery in New
Orleans in years.

Bureau Reports Gain
In Cost of Living

WASHINGTON, Jan. 9.—The
cost of living for moderate-income
families in large cities rose .7
of 1 per cent from mid-October to
mid-November, the bureau of
labor statistics reported today.

The consumers price index rose
to 164.9 per cent of the 1935-39
average, a new record high, the
bureau said, confirming its pre-
liminary estimate of index, made
a week ago.

U.S. SENDING SUBMARINES TO AID TURKEY

Greece Also To Get Six as
Safeguard Against
Russia.

By The Associated Press
WASHINGTON, Jan. 9.—Four
of the Navy's powerful fleet-type
submarines are being supplied to
Turkey as part of the United
States program to strengthen that
key middle eastern country
against Soviet Russia.

The Navy made the announce-
ment today. Rep. Vinson (D-Ga.)
later told reporters that six sub-
marines also will be transferred
to Greece, where government
forces are battling guerrillas
along the borders of her northern,
Communist neighbors.

Delivery of the 1,500-ton un-
dersea vessels to Turkey will be
completed sometime in April along
with the transfer of eight motor
mine sweepers, one net laying
vessel, one gasoline tanker and
one repair vessel.

In Defense Program

This is the latest in a series of
American moves to reinforce
Greece and Turkey and generally
bolster the position of the west-
ern powers in the eastern Medi-
terranean, a target of Soviet in-
terests.

The Navy has about 180 sub-
marines in its operating and re-
serve fleets. Russia is reputed to
have an even larger undersea
force—possibly as many as 250.

The announcement came at a
time that 7,000 Marines are en-
route to strengthen crews aboard
U. S. warships in the Mediter-
ranean. Some of these ships are in
waters about Greece where guer-
rilla warfare marks the conflict
between the communists stem-
ming from Soviet Russia and her
eastern satellites, and western
Europe and the United States.

Russia, Turkey's huge neighbor,
has repeatedly been reported by
Navy officials here to possess one
of today's largest submarine
fleets.

While the transfer to Turkey of
torpedo boats and minesweepers
had been contemplated since the
start of the Turkish aid program,
there had been no previous of-
ficial mention of submarines.

The Navy said Greece also has
received six motor gun boats un-
der the \$300,000,000 Greek aid
program.

Fleet-type submarines are
large modern vessels capable of
operating at long range. The four
to be transferred are the Brill,
Blueback, Boarfish and Chub,
1,200-foot-long vessels built in
1944. They are armed with 10 tor-
pedo tubes and normally carry a
crew of about 65.

QUINCY, Ill., Jan. 9.—Will-
iam J. Dieterich, assistant
state's attorney for Adams
county, said today that Richard
Grubaugh, 18, declared that he
shot to death Leroy Miller, 17.

By The Associated Press

QUINCY, Ill., Jan. 9.—A youth
identified by Police Chief Roy A.
Welsh as Leroy Miller, 17, be-
lieved from Ashland and Mans-
field, O., was shot and killed to-
day in a downtown hotel where
he was staying with two Mans-
field, O., youths.

Welsh said police had not de-
termined whether Miller was ac-
cidentally killed and he ques-
tioned his two companions in
connection with the shooting.

Welsh said several guns were
found in the room occupied by
the youths. Miller was shot in
the head with a .32 caliber pistol.
The police chief identified the
two held for questioning as Dick
Grubaugh, 18, and Robert Liv-
ingston, 17, and said they told
him they and Miller and a fourth
man had staged two holdups in
Peoria, Ill., one on Monday and
one yesterday. The fourth man,
Welsh said, was seized by Peoria
police and was identified as Bruno
Gresch, 22. His wife also was
taken into custody.

Welsh said Grubaugh and Liv-
ingston related that the four
youths and Mrs. Gresch had left
Mansfield on Jan. 2 in a stolen
car. They arrived in Peoria on
Monday and robbed a filling sta-
tion of \$55.

Yesterday, the police chief said
the two youths told him, the four
obtained \$200 and four revolvers
in a holdup of the Kotten Jobbing
Co., a loan company in downtown
Peoria.

Miller, Grubaugh and Livings-
ton came to Ashland by bus and
stopped at the Newcomb hotel.
Welsh said Grubaugh and Livings-
ton had met Miller and Gresch in
Mansfield only recently and did
not know where they lived.

night from four Columbus pastors.
The joint blast came because
the third party presidential candi-

two speeches to a convention of
Ohio pastors, Jan. 28.

"Unbecoming," "Communist
Trend," "left-wingers and Com-
mie-Coddlers" were some of the
phrases tossed out by the four
ministers, all members of the
American council of churches.

"The American council opposes
'modernization' of the federal

"So Henry's coming," said Rev.
William E. Ashbrook, pastor of the
Calvary Bible church. "Birds of
a feather will flock together, it

"I think the presence of Mr.

cils should help open the eyes of
the people of Ohio to the nature
of the program being sponsored
by these organizations."

"For years past the Ohio Coun-
cil has been bringing to Colum-

resolutions for that confer-
ence were written by radicals in

Taft Labels Truman Program Road To National Bankruptcy

By The Associated Press

WASHINGTON, Jan. 9.—A new Democratic plea for congres-
sional unity raised a faint whisper today among the echoes of a
speech by Senator Taft (R-Ohio) condemning President Truman's
program as the road to "national bankruptcy" and a "totalitarian
state."

Senator Hatch (D-NM), longtime close friend of the President,
proposed that the Republican and Democratic policy committees of
the senate form "one policy committee for the nation" to deal with
inflation and foreign aid.

"With united effort this con-
gress can overcome all obstacles
and go down in history as one of
the greatest congresses of all
times," Hatch declared.

His olive branch apparently
was withered on the vine, how-
ever by Taft's steaming radio at-
tack last night describing propo-
sals in Mr. Truman's state of
the union message as "the ghosts
of the old New Deal with new
trappings."

G.O.P. Plans Unchanged

Taft, chairman of the Republi-
can senate policy committee and
a candidate for his party's presi-
dential nomination, said flatly:
"The Republican congress pro-
posed to go on with its program."

Meanwhile Chairman Taft (R-
NY) of the house appropriations
committee estimated the Truman
program would cost \$20,000,000,
and said this would make tax
reduction—a prime G.O.P. target
for 1948—an impossibility.

Taft centered his fire mainly
on the President's domestic pro-
posals, including a \$40-per-per-
son "cost of living" tax cut with
an offsetting \$3,200,000,000 boost
in corporation taxes, compulsory
curbs on inflation and a 10-year
plan to advance the social wel-
fare of the nation.

"Nobody could fail to agree with
the President's objective of im-
proving the lot of the people, the
Ohioan said. But as for the Pres-
ident's ideas on how this should
be done, he asserted:

"Taken together they add up
to national bankruptcy."
"Taken together they will add
up to a totalitarian state."

Calling Mr. Truman's tax plan
"about as discriminatory a pro-
posal as could be made," Taft
added:

"If followed to its logical con-
clusion he would ultimately im-
plement a large proportion of all in-
come and shift all taxes onto a
very small proportion of the popu-
lation."

Veloes Recalled

Taft noted the President came
forth with his tax formula after
twice vetoing G.O.P. tax reduc-
tion bills last year.

"It looks to me like playing
politics with your money," the
lawmaker said.

"In this picture the federal
government comes forward again
as Santa Claus himself, with a
rich present for every special
group in the United States. . . .
If anyone has expressed a desire
in a letter to Santa Claus, that
desire is to be promptly fulfilled."

Taft added:
"One cannot but feel that the
recent announcement of Mr.
Henry Wallace has had a sub-
stantial effect on the state of the
union. Henry himself will have
a hard time to find anything to
promise the people of this coun-
try which is not promised in this
message."

Wallace, who was fired as sec-
retary of commerce by Mr. Tru-
man after a disagreement over
foreign policy, recently announced
he will head a third party ticket.

"The President," said Taft, "is
apparently determined that the
left-wing of the American Labor
party and its labor union friends
throughout the country shall be
bound to him and shall have no
excuse to stray into the Wallace
camp."

Taft made two brief references
to the Marshall plan to extend
economic aid on a self-help basis
to western Europe: He (1) prom-
ised that every expenditure will
be scrutinized "so that it may in-
clude nothing which is not abso-
lutely necessary," and (2) esti-
mated that the plan involves
about \$2,000,000,000 a year more
than is now being spent for for-
eign aid.

Possible U. S. Help in Building Is An- nounced by Mayor

Possible solution to the problem
of adequate hospital facilities for
the city of Marion and Marion
county was revealed today by
Mayor Harry L. Dowler.

Mayor Dowler called the atten-
tion of Marion residents to a pub-
lic discussion slated Jan. 29 in
Columbus to consider a federal-
state plan to provide an adequate
number of hospitals in Ohio.

The proposed plan emphasizes
the need for construction of hos-
pital facilities in rural areas with
limited financial resources. Fac-
tors to be considered in recom-
mending new hospital construction
are: areas which show no ac-
ceptable existing facilities; effec-
tive buying power; ability of areas
to maintain and operate facilities
created and distance from nearest
existing general hospital of at least
50 beds.

Requirements Specified

Definite requirements have
been set up under the federal pub-
lic health service act through an
amendment passed in August,
1946 authorizing federal grants to
the states for surveying hospitals
and public health centers and for
planning construction of additional
facilities and for grants to assist
such construction.

Ohio has conducted its survey
and has drawn up its plan on
which the hearing will be con-
ducted Jan. 29.

One phase of the plan may have
direct bearing on the serious need
in Marion for better hospital fa-
cilities, Mayor Dowler said. That
phase provides for 18 areas desig-
nated as "intermediate" areas
which are to have at least one
general hospital each with a com-
plement of at least 100 beds. Each
"intermediate" area must have a
total population of more than
25,000, under plan requirements.

Marion To Get Attention

Details of the plan as drawn up
from the state survey have not
been revealed. However, in a let-
ter to Mayor Dowler, the hospital
survey director, Dr. E. V. Turner,
said: "The recommendations of
the Ohio hospital survey will in-
clude considerable attention to
the present hospital facilities in
the city of Marion."

Mayor Dowler indicated that he
will ask the heads of various civic
organizations to Marion to select
representatives to accompany
Safety-Service Director E. O. Un-
capher and the mayor to Colum-
bus to attend the hearing.

Hope for Marion Aid

Mayor Dowler expressed the
hope that out of the federal hos-
pital survey and construction act
may come sufficient federal aid
for the erection of a badly needed
new hospital in Marion.

"It is in the interest of every
resident of the city and county,
that whatever financial hope ex-
ists for improved hospital facilities
for our people be followed up to
the best advantage," the mayor
declared.

"Marion taxpayers approved a
\$200,000 bond issue for an addi-
tional hospital building before the
war. That money has never been
used because it would fall far
short of providing even the mini-
mum improvements necessary for
city hospital to give the commu-
nity adequate service," he said.

"My hope is that under this
state hospital plan, Marion will
not have to contend with half-
century old buildings garnished
with makeshift additional facilities
inadequate to serve Marion satis-
factorily, let alone our increasing
number of patients from Marion
County and neighboring counties."

Mayor Dowler declared.
"This opportunity may afford
the chance for a new modern well-
appointed hospital, financed by
one federal dollar to every two

Galion Red Cross Hears Speakers

Special to The Star

GALION—That the accident rate can be cut almost one-half when children are taught accident prevention, was pointed out by F. C. Boals, traffic commissioner of Mansfield, when he was speaker for the meeting of the board of directors of the Galion Chapter of the American Red Cross Tuesday night. Boals said most accidents are the result of not thinking, and training should begin early so that children will obey traffic signals automatically, and learn those

habits which will keep accidents at school and at home to a minimum.

Miss Rosemary Forsythe, Junior Red Cross field representative for Ohio and Indiana, also spoke. She discussed the 1942 fund campaign and told of large and small disasters which have inflicted such havoc in the country this past year.

Short talks also were given by Mrs. Grace Glenn who told of the need of conserving food in co-operation with the Citizens' Food Campaign to relieve the hunger that is spreading over the world, and by Mrs. Harriet Ebert, executive secretary of the Galion chapter.

DRIVER FINED \$10
John Benge, 66, of near Marion, was fined \$10 and costs in municipal court yesterday on a charge of driving a car without a muffler. He was arrested by the state highway patrol yesterday.

PILES ARE NEVER "MILD" DANGER IN NEGLECT

No one should ever think of piles (hemorrhoids) as a "mild" disorder. Although they may seem a "mild" ailment, especially when not giving pain or inconvenience, piles are in fact tumor formations without tendency to heal themselves; instead, they are likely, if neglected, to keep increasing in size, involving more and more of the rectal area.

Even a so-called "mild" case may be expected to undermine one's health, by inviting, predisposing to or aggravating other ailments, such as indigestion, biliousness, stomach trouble, constipation, headaches, pain in back and down the legs, secondary anemias, with its rundown tired feeling and general nervous irritability. Removal of piles is the only permanent relief—written guarantee. My method produces little or no discomfort, does not require the use of knife or drugs, and seldom is the patient required to lose any time from work or other duties.

Why not call and learn of this method? The examination is free. No Appointment Needed. Cost of Service Within Your Means

SAVING OF BONUS CAMPAIGN PROPOSED

The Associated Press
WASHINGTON, Jan. 9.—Rep. McCulloch (R-Ohio) proposed today that advertising campaigns be started in Ohio to sell the idea of saving the forthcoming state bonus payments instead of spending them.

He estimated that up to \$300,000 would be paid out to about 800,000 veterans when made up and said if this amount immediately goes into circulation it would add to present inflation.

He said he has written to officials of four Ohio statewide organizations asking them to cooperate with other leaders in organizing such a campaign.

Those he wrote are David M. ... executive manager of the ... Bankers association; J. S. ... of the Ohio American ... E. M. Martin, executive ... of the Ohio Newspaper ... and Don Tobin, executive ... of the Ohio Savings ... and Loan league.

McCulloch told a reporter that

veterans organizations, banks building and loan groups, newspapers and radio stations could participate in such a campaign.

Veterans should be advised, he said, to put their bonus payments into banks, building and loan associations or into government bonds.

He asserted that this would give veterans a "nest egg" and help retard inflation. He added that veterans probably would be able to buy more with their bonus in the future.

In the civil division of the court costs amounted to \$74.95, payable to the general fund of the city treasurer.

Pension Society Hears H. E. Gross of Sidney

H. E. Gross of Sidney was a guest speaker at the weekly meeting of the Old Age Pension Society of Marion County Friday in the Eagles hall. His subject was "Our Task."

"America," sung by the group and prayer by O. B. Christ and the audience opened the meeting. Music included selections by the choir, "Some Bright Morning" and "Wonderful Peace," a quartet number, "I'll Make It My Home Some Day," by William Sergeant, O. B. Christ, Christian Ruth and John Augenstein and a solo, "He's the One," by O. B. Christ, accompanied at the piano by Mrs. Eva Parish.

A letter from Mrs. M. J. Berry of Mansfield, informed the group that Mr. Berry, president of the state organization, is ill of pneumonia in a hospital in Mansfield. The betterment of conditions, doing something for someone each day, making Christmas 365 days in the year were cited by the speaker as each one's task. Your task, he said, is seeing that love and happiness stays in America. That task, he added, will liberate some conditions. Pray and cause the clergy to pray for better living for old, neglected folks. Right will prevail, keep on keeping on. It is your task to see that something is done; many of the well to do citizens today may be in want soon and need of a pension. The closing prayer was by Mr. Sergeant.

N.Y.C. President Says Higher Rates Needed
By The United Press
LORAIN, O., Jan. 9.—Gustav Metzman, president of the New York Central System, said last night a further increase in freight rates is necessary for the financial stability of American railroads.

The railroads' financial strength is "seriously threatened" by lack of revenues, Metzman said in an address to the Lorain Chamber of Commerce.

Because the railroads rely on private capital to finance improvements, he said, they must be "attracted to prosper" so they can "attract such capital."

"The railroads have no chest of higher prices to which they can reach immediately when their costs go up," Metzman said.

He praised the recent 10 percent interim increase in freight rates granted by the interstate commerce commission, but added: "Gratifying as this is, it is only part of that necessary to insure the continuing financial stability of the railroad industry."

APARTMENT OWNERS WON'T BACK FIGHT

By The Associated Press
CLEVELAND, Jan. 9.—The Apartment House Owners' association of Cleveland today withheld financial support to Clord W. Miller, Cleveland landlord who is attempting to test the constitutionality of the 1947 housing and rent act.

The housing expediter last July obtained a preliminary injunction preventing Miller from raising rents on suites in an apartment house, but last November Federal Judge Paul Jones ruled the act unconstitutional and ordered the injunction dissolved.

The office of the housing expediter immediately appealed the ruling and the case is scheduled to be heard by the U.S. supreme court sometime next month.

In its original complaint against Miller, the government agency alleged he had sent notices to his tenants informing them that their rents would be raised as much as 60 per cent.

Miller has been seeking funds from organizations and individuals to aid in pressing the fight to test the law. He has said that unless he receives financial backing from real estate organizations and contributions from interested individuals he will be both unable and unwilling to continue the battle.

W. D. M'GEE HONORED BY Y'S MEN'S CLUB

Scioto Ordnance Plant Official Transferred to Columbus.

At their first meeting of the new year, held Thursday evening at the Y.M.C.A., the Y's Men joined in paying tribute to W. D. McGee, a charter member of the club who is being transferred from Marion.

In May, 1942, Mr. McGee, came to Marion from Washington, Ind., to become equipment and personal property officer for the U. S. Engineers at the Scioto Ordnance Plant. At the completion of this installation he had assumed responsibility for property valued at more than \$10,000,000. In addition to this, the Scioto office also took over the handling and disposition of all property at Camp Millard in Bucyrus and at Camp Perry at LaCrosse, O.

At the close of the war his office became the redistribution center for the material involved in the termination of war contracts by the Engineers for the state of Ohio. He said that most of this property has been disposed of and that the remaining items have been turned over to the McGraw Construction Co. who will maintain and account for it to the war assets administration. Through personal acquaintance with Bland W. Stradley, vice president of Ohio State university, Mr. McGee was able to initiate negotiations with the university whereby they would take over a section of the Scioto site for the establishing of an agriculture and engineering experiment station.

Effective Jan. 12, Mr. McGee assumes his duties as property and supply supervisor at the Columbus General Depot at Columbus. This depot according to McGee, is the supply center for Engineers, Ordnance and Quartermaster branches for the central part of the United States.

In the absence of President Myers, Mr. McGee, as first vice president of the club, presided over the Thursday night business session. Earl N. Hale, secretary of the Y.M.C.A., presented him with a service key in behalf of the Y.M.C.A. board of directors. Mr. Hale stated that the award was made in recognition of Mr. McGee's "excellent leadership and service" in Y.M.C.A. work and related civic projects. He further pointed out that only a few Marion men had received such an award. Another Y's man so honored in the past is William Luse for his work in organizing Marion's club Co-Ed.

Louis Conkle, a past president of the Y's Men, also paid tribute to

Kiwanis Club Installs New Officers at Annual Meeting

Members of the Kiwanis club combined business with a social evening by installing their 1948 officers, headed by U. A. Nyström, at the traditional ladies' night dinner party last evening at Hotel Harding. More than 150 members and guests attended.

E. L. Cleveland, retiring president of the club, was master of ceremonies and the audience heard a talk on "The Life of Your Time" by Dr. Tenyson Guyer of Ohio City, and was transported to Switzerland with the accordion music, songs and yodeling of Toni Gauer, student at Ohio Wesleyan university Delaware and a native of Flawil, state of St. Gallen, Switzerland.

The guests were seated for the dinner in the ballroom and on the mezzanine floor. Red candles in low crystal holders lighted the tables which were paneled down the center with greenery. Completing the setting were bowls of red roses and favors of red roses at each place. A standard bearing the Kiwanis flag, and the Kiwanis banner, with the American and Canadian flags on the east wall were the decorations in the ballroom. The dessert course was ice cream upon which was moulded a picture of the new club president.

Rated As Top Speaker
Dr. Guyer, who is a humorist as well as a student of people and times, is rated as one of the 10 best speakers in the state. Holder of two doctors' degrees he has a background of work with youth and their problems. Driving home his points with rapid-fire humor Dr. Guyer proved to his audience how much there is in the world for which we should be thankful and happy, and cited as the answer to today's problem selling the American way of life to a broken down world that has lost faith. Americans are the best salesmen in the world, he said, "but we have not been selling our way of life to anyone—what we have failed, we have latent talents, but the campaign must begin in our own hearts."

Mr. Gauer, interpreted his accented numbers with stories of his native land and presented his program in costume. His selections included a Swiss march, "called in this country a schottish," a polka, "Mighty fine," Swiss-French, Swiss-Italian compositions and a number of other numbers. To close he asked the audience to join him in singing "Home on the Range."

A. W. Kette Presides
A. W. Kette presided for the installation of the newly-elected officers. Taking office with Mr. Nyström are Ralph E. Carhart, first vice president, Robert O'Connell, second vice president, J. D. Torrance, secretary, Paul Bachman, treasurer, and directors E. E. Miller, Rev. J. B. Holloway,

U. A. NYSTRÖM

Clarence Shockney, John Dowler and Paul Hunt. Mr. Kette presented Mr. Nyström with a president's pin and Mr. Cleveland with a past president's pin. Ernest L. Davis, president of the Tri-Sixty Club, and Clark Fouts, principal at the Silver Street school were welcomed as new members.

Following a club custom heads of other service clubs were among the guests. These included Mr. and Mrs. Richard Myers, Mr. and Mrs. Frank Foster, Mr. and Mrs. Clarence Ross, Mr. and Mrs. Robert Morrison. Mr. Myers is president of the Y's Men's club, Mr. Foster of Rotary, Mrs. Ross of Altrusa and Mr. Morrison of the Lion's club. Other guests included Supt. E. E. Holt and Mrs. Holt, Miss Nancy Niles of Los Angeles, Calif., Dr. and Mrs. A. E. Morrison, Mr. and Mrs. W. E. Law, Miss Ruby Schrader and Miss Edna Dutton.

Club awards were won by Dale Lawrence, Thomas Scott, Charles Kerrey, Dr. V. C. Kilsell, Jack Nelson and Dr. N. Sifrit. Prayer was offered by Rev. M. E. Hollensen, pastor of Emanuel Lutheran church, and group singing was directed by L. G. Jones. Charles Jennings was chairman of the committee in charge of the arrangements for the party and he was assisted by William Coffey, Sol Freed, Kelley Vance and Bernard Smith.

PALESTINE SPLIT TO GO ON SCHEDULE

By The Associated Press
LAKE SUCCESS, Jan. 9—Trygve Lie, secretary-general of the United Nations, expressed confidence today that the secretary council would exercise "every necessary power" to see that partitioning of strife-ridden Palestine is carried out by next Oct. 1 without fail.

Lie did not mention the creation of an international military force as a specific partition enforcement measure, but this was implicit in his statement, since the council has the power to set up such a force.

PRESIDENT PAYS USO DISCHARGE TRIBUTE

By The Associated Press
WASHINGTON, Jan. 9—President Truman awarded an "honorable discharge" today to the United States Organizations (USO), which for seven years provided entertainment and comfort for the U. S. armed forces and their allies.

"The USO has fulfilled its commitment and discharged its wartime responsibility completely and with signal distinction," Mr. Truman said in a statement distributed in advance of a White House ceremony.

Following his return to the United States he was commissioned in the regular army in September, 1945, and entered the 41st Infantry Division, 9th Army, in January 1946 and was graduated in January 1946. He later

thereafter becomes my privilege to award an honorable discharge to the organization, to its member agencies, to the camp shows affiliate, to the million and a half volunteers and to the thousands of devoted staff members.

"The service performed—through the billions of personal services to the men and women in uniform, through the raising and efficient expenditure of many millions of dollars, through the whole-souled cooperation of great national agencies and of the great faith—has been of inestimable value to the nation. On behalf of the nation I transmit my deepest appreciation."

The organization, representing the Protestant, Catholic and Jewish faiths, collected a total of \$236,711,295 in contributions from the time it went into action in February, 1941, through last month, the USO said in a final report today.

Arson Squad Clears Galion UAW Fire

Special to The Star
GALION, Jan. 9—It was announced Thursday by Fire Chief Harry Kille that the arson squad of the state fire marshal's office conducted an investigation here in regard to the fire which occurred Saturday in the building on West Railroad street which housed the headquarters of the United Auto Workers-CIO.

The arson squad found that the fire resulted from the ignition of kerosene in a cook stove caused by the explosion of gases in the coal heating stove in which kerosene had been used to rekindle a fire.

The arson squad was summoned after many rumors had circulated through the town, Kille said.

TEACHER, 6 OTHERS HELD IN BURGLARY

By The Associated Press
AKRON, O., Jan. 9—A 25-year-old high school English instructor and six other Akron men were held in city jail today on charges of burglary and larceny in connection with a series of local burglaries which netted \$10,000 in loot.

Detective Capt. John Struzenski identified the teacher as Edward J. Phillips, instructor and athletic coach at nearby Macedonia high school, and asserted the alleged gang's arrest had solved at least six car robberies.

Police arrested three of the gang, James R. Gault, 23, John H. 23, and Frank Basile, 24, when they trapped the trio yesterday in a north side cafe. Cruisers noticed a window of the tavern was open, stopped to investigate and discovered the trio hiding under a table.

Struzenski said the trio implicated Paul A. Wingerter, 22, Anselm Fretz, 38, and Phillips in the robberies. Phillips, brother of a city patrolman and son of a Summit county deputy sheriff, was arrested at Macedonia high school, while a seventh man was apprehended later.

Phillips faced a specific charge of burglary of the Akron municipal golf course last July. He denied any implication in the other robberies.

Capt. Struzenski said Phillips admitted receiving equipment valued at \$891 from the burglary, and quoted the teacher as saying: "I was drunk that night and haven't taken a drink since. When I sobered up, I refused to take any of the equipment."

"Flaming Red Cone" Over Ohio Is Mystery
By The Associated Press
WILMINGTON, O., Jan. 9—The appearance of a flaming red cone trailing a gaseous green mist through the skies continued to be a mystery today to the Army men and civilians who saw it near the Clinton county army airbase Wednesday night.

The army took official cognizance of what it called a "phenomena of the skies," but in a statement said it had no idea of what it was or what it might mean.

The sky phenomena, described by observers at the Clinton county airbase as having the appearance of a flaming red cone trailing a gaseous green mist appeared in the southwest skies of Wilmington Wednesday night between 7:20 and 7:55 p. m., army officials said in a statement.

Six Army men saw the sky picture, it was stated.

From Louisville, Ky., came a report that "flying saucers" had made their appearance Wednesday and that Capt. Thomas F. Mantell Jr., 25, was killed while chasing one of them in his airplane.

4 LEADERS NAMED FOR EAGLES DRIVE

"Gold Rush" To Mark 50th Anniversary of Lodge.

Four leaders to spearhead a membership campaign in connection with the national lodge's fiftieth anniversary drive were appointed by Omar Williams at a meeting of the local aerie of Eagles Wednesday night.

Following a discussion on the purpose and procedure to be followed, Mr. Williams named John Finley, Dale Guyton, Ed Pleasant and C. A. Conway as captains.

The campaign Williams said is to be known as the "gold rush" with the workers as "diggers." Plans for regular pep meetings were outlined by Williams for the duration of the drive slated to continue until May 31.

Other business included acceptance of two applications for membership. Announcement was made that the Delaware aerie will be host to a thirty-first district meeting Sunday with a large delegation from the Marion lodge to attend.

The meeting concluded with a smoker.

FORD INTERESTS SUED FOR HUGE AMOUNT

By The Associated Press
NEW YORK, Jan. 9—Henry Ford 2nd, the Ford Motor Co., the Dearborn Motors Corp., and seven other officers and directors of the companies were named defendants in a \$251,000,000 damage suit filed yesterday in federal court by Harry Ferguson, Irish-born farm machinery inventor.

The suit charged the defendants with infringing on patents by copying the Ferguson line of farm tractors and violating anti-trust legislation by conspiring to drive the plaintiff's firm, Harry Ferguson, Inc., of Detroit, out of business.

In a statement at Detroit, Henry Ford 2nd described the complaint as "ridiculous" and "full of untruths." He said Ford officials would be "very happy to meet all of the allegations" at the proper time and place.

The complaint involved one of the largest amounts ever sought in civil action here. The suit estimated capital value of the Ferguson company at \$80,000,000 and said action of the defendants impeded profitable operation of the company.

Once called Henry's "only partner," Ferguson alleged in his suit that the defendants violated a verbal agreement between him and the motor magnate by unlawfully seizing and using Ferguson's inventions, engineering developments, ideas and designs.

Roving Reports

NEW YORK
TODAY is just today with many people on the edge of their seats. The future is sure to be a better one than the past—like a small child who thinks the ice cream man has the money to buy a lot better than the rest of the world. There's nothing a senseless.

But by ouija board and crystal ball, by tea leaves and horoscopes, the effort still goes on to plot the happy life in the world to be. Someone even has figured out a way to forecast coming events by the shape ice cubes assume as they melt in the glass. The usual conclusion by the hypnotized patron is that it is about time to buy another drink.

The other day members of the Advertising Club of New York sealed into the cornerstone of their new building a number of predictions on how Americans will live in faraway 2004, the year the

The JIM DUGAN CLOTHING STORE

By Hal Boyle

club celebrates its hundredth anniversary. There was little held out attractive enough to make a middle-aged man of today want to hang around overtime just to greet these dubious benefits of the twenty-first century.

A man who canvassed clothing designers, for example, came up with this soul-labbering portrait of the same of tomorrow:
"Women will carry their own little flying machines in jeweled handbags and fly through the air with iridescent wings. Clothes will contain their own air-conditioning units."

"The great immodesty will be public exposure of eyes. Men and women will dress very much alike. Clothes will be mechanically contrived and electrically controlled."

Isn't that something to look forward to! Ladies flapping about like Junebugs, flying blind because they don't dare show their gimmers for fear of losing their reputation! Or maybe glaring at you through a periscope because you splashed mud on their rain-bow wings.

When the snow goes in spring, you'd suffocate until you could phone up the repair man and say, "Joe, can you buzz over quick and tune up my trousers for summer? I feel a heat wave coming up my ankles."

Or when you poked a hole in your sock, you'd have to beg the wife, "Honey, can't you sew up the rehostat so I won't be late to the office? Before you changed suits you'd have to pour water in the battery and check the coat with a wheatstone bridge and a voltmeter."

With man and wife dressing alike there'd no longer be any doubt about who wore the pants in the family. (As if there is now!)

Of course this strange new world will probably have other compensations to make it more liveable for people afraid to go out in a storm in their 2004-model electrically-wired raincoat unless it has a lightning rod, too. Race-horses that you lay \$2 on will probably be guaranteed to run on wheels instead of their knees. Paychecks will be of rubber and stretch enough to pay all bills, including the one for junior's new atom-powered helicopter. Golf will have all its temper-fraying uncertainties removed, as it will be played with balls equipped with built-in radar that always assure a hole-in-one average.
Oh, the future will have its advantages, and our antiseptic progeny will probably enjoy it. But we'll stick with the dirty old germ-bit world of today. The hardest thing about any life is getting used to it—and we're used to this one.

Former Marion Woman Lands 41-lb. Sailfish
Mr. and Mrs. L. M. Francis, former Marion residents, went sailfishing Jan. 4 aboard the charter boat Buckaroo, skippered by Captain Ford Carter, out of Stuart, Fla., and it was Mrs. Francis who turned out to be the lucky angler. She caught her first sail, one measuring 6 feet 8 inches; weight 41 pounds. Mr. Francis, son of Mr. and Mrs. Jack Francis of Harding Highway, W., is practicing law in Stuart.

New Car Sales Total 1,476 in County in 1947
A total of 1,476 new cars and trucks were sold in Marion County during the year ending Dec. 31, 1947, according to Clerk of Courts Calvin Osborn.
Of the new vehicles sold 1,254 were cars and 222 were trucks. Clerk Osborn stated that there is little basis for comparison between 1947 car sales and those of 1946. Car sales for the county in 1946 would not exceed 300 units, Mr. Osborn believes.

COLUMBUS, O., Jan. 9 — You are reading here and there about state football players, professional, or how their acquisition might help the Cleveland Browns retain their All-America contention.

Some have blamed the lack of college football players for the Browns' lack of success. Others have applauded the "dough" while others have said the players should have a turn at the professional game.

There is no doubt that the Browns are more than pleased with the college players they have acquired. Lou Groza, place-kicker, and Danie Lavelli, outstanding pass-catching end for Browns.

Tossed Wrestlers,

(One Each)—\$25

By The Associated Press

CINCINNATI, O., Jan. 9 — It now costs professional wrestlers \$25 a head to throw each other—or themselves—out of the ring here.

The city boxing and wrestling commission, in an effort to keep rough stuff inside the ropes, so ruled yesterday.

A second violation means another \$25 jolt to the pocketbook and indefinite suspension from appearances on local programs.

The commission's action followed a ringside melee at Music Hall a week ago tonight in which one spectator was kicked in the mouth by a wrestler.

MARION PATROLMEN

IN REFRESHER CLASS

All Officers in State Called to

Columbus for Course.

"All state highway patrolmen in Ohio will attend the patrol's refresher training school, during the next four weeks", Colonel George Mingle, the patrol superintendent announced today. "It is our regular practice to bring all our patrolmen to Columbus each year for a short concentrated course covering new laws, new responsibilities and the latest law-enforcement methods," he added.

Corporal T. B. Morgan, commander of the patrol post at Marion, is now attending this refresher course and upon his return next week Patrolman C. H. Brown will attend the school. During the month of January every patrol officer in the state will have completed this schooling.

"Our experience has shown us that the recruit training for new men is only the first step in proper training for patrol officers," Col. Mingle said. "A brief monthly schooling at the post plus a concentrated period of training at least once a year is necessary to keep our men up to date on the most effective methods of discharging their duties. The 1947 session of legislature broadened the responsibility of the patrol considerably in criminal enforcement. Our traffic and accident control methods must be constantly adjusted to changing conditions."

"We hope that the state of Ohio will never be visited by any disaster of the proportions of the recent Texas explosion, resulting in death and injury to hundreds of people, but we made an on-the-scene study of the police methods used by the Texas highway patrol and all other police who served during that disaster. From this experience we have learned many new techniques for aiding the injured and homeless in such a holocaust and also methods for better identifying

disaster casualties. This is a part of the material being taught in this intensive school."

Immediately after completion of the current schools are expected to open the twenty-fifth training school for new patrolmen. We are now in the process of examining and selecting candidates for enrollment in the refresher school", Colonel Mingle added.

Colonel Mingle also stated that young men who are interested in the highway patrol as a career can obtain all necessary information and application forms at the patrol post nearest their home.

DANGER SEEN IN RH BLOOD TRANSFUSION

By The Associated Press

CHICAGO, Jan. 8.—Transfusion of RH-positive blood to RH-negative women "may be disastrous to future child bearing even though many years may intervene," two physicians reported today in the Journal of the American Medical Association.

The authors, Drs. L. M. Hellman and G. R. Vosburgh of the Johns Hopkins hospital and University School of Medicine, said creation of blood banks and increased use of blood transfusions had accentuated the danger.

"In case of emergency when time does not permit RH determinations, only RH-negative blood should be given," they said.

The researchers said that if an RH-positive man is mated to an RH-negative woman (a combination occurring in 12 per cent of

the marriages) the infant usually will be RH-positive.

There are only two ways in which the RH-negative woman (about 15 per cent of all women fall into this group) can acquire enough RH antibodies in her bloodstream to give birth to a baby suffering from blood incompatibility (a combination of jaundice and anemia called erythroblastosis).

The first is by repeated bearing of RH-positive children—a process which gives her a growing concentration of antibodies, producing after several pregnancies mild and then more severe erythroblastosis.

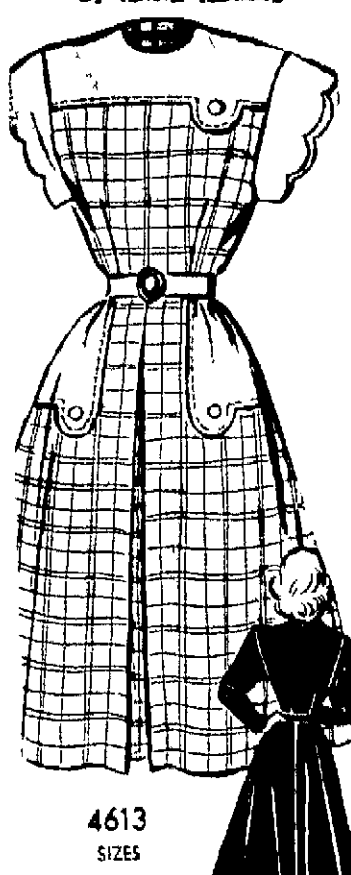

The second is administration of an RH-positive transfusion which will produce no outward reaction if she has not been previously immunized but serves as a much more powerful immunizing agent than the repeated bearing of RH-positive children.

The authors added:

"Even a small transfusion will give a high and persistent antibody titer (concentration). Women so sensitized produce RH-positive children with the severest form of erythroblastosis who usually do not survive."
